

Liberia: TotalEnergies is Awarded Four Offshore Exploration Permits

Paris, September 17, 2025 – TotalEnergies has signed four Production Sharing Contracts (PSC) for the LB-6, LB-11, LB-17 and LB-29 Exploration blocks offshore Liberia, which were awarded following the 2024 Direct Negotiation Licensing Round organized by the Liberia Petroleum Regulatory Agency.

The blocks LB-6, LB-11, LB-17 and LB-29, covering an area of approximately 12,700 square kilometers, are located in the south of the Liberia Basin. The work program includes acquiring one firm 3D seismic survey.

“TotalEnergies is enthusiastic to be part of the resumption of exploration activities in offshore Liberia,” said **Kevin McLachlan, Senior Vice-President Exploration at TotalEnergies**. “Entering these blocks aligns with our strategy of diversifying our Exploration portfolio in high-potential new oil-prone basins. These areas hold significant potential for prospects that have the potential for large-scale discoveries that lead to cost-effective, low-emission developments, leveraging the Company’s proven expertise in deepwater operations.”

About TotalEnergies

TotalEnergies is a global integrated energy company that produces and markets energies: oil and biofuels, natural gas, biogas and low-carbon hydrogen, renewables and electricity. Our more than 100,000 employees are committed to providing as many people as possible with energy that is more reliable, more affordable and more sustainable. Active in about 120 countries, TotalEnergies places sustainability at the heart of its strategy, its projects and its operations.
